Introduzione

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

One-time pad

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

Il caso

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

DES

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

RSA

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

DH

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

Curve ellittiche

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

Firma digitale

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

SSL

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

Protocolli Zero Knowledge

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

Bitcoin

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

Teoria dell'informazione

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```

RFID e protocolli crittografici

```
//Hello.java
import javax.swing.JApplet;
import java.awt.Graphics;

public class Hello extends JApplet {
   public void paintComponent(Graphics g) {
      g.drawString("Hello, world!", 65, 95);
   }
}
```
